TOKYO SUGGESTIONS FOR STATEMENT ON OUTER SPACE ISSUE

FR Tokyo: OHIRA

TO United Nations: Japanese Delegation

Msg Nr: 1034

4 Dec 63

Very Urgent

Reference your Nr. 1962((A)).

1. There is no objection on the whole, but in Paragraph 39 "entire resources" sounds too strong and might better be "toned down".

2. In Paragraph 30, the passage from "the government of Japan" to "program" is not quite accurate. We suggest substituting something like the reference to IGY in Mr. OKAZAKI's statement in the First Committee last December.

3. In the first part of Paragraph 33, the reference to the launching of two Kappa rockets in May should be corrected to [B val one], and the payload of the Lambda should be corrected to 180 kilograms.

4. Regarding Paragraphs 34 and 35, recent developments are as follows:

(a) The Kagoshima Space Center will conduct its second Lambda test on 10 December.

(b) There were successful tests of television relay by satellite between Japan and the United States on 23 and 26 November. (Two tests on each date.) The second test on 23 November conveyed the sad news of the assassination of President KENNEDY.
